Research Focus Worksheet

1) What question(s) would you like to answer by the end of the assignment?

2) What are some of the key words or phrases from these questions?

3) Identify which database(s) that you think would be a good fit for answering these questions.

4) Using the database(s) and the key words or phrases that you identified try searching for two articles that you think might help you answer your research question(s). Write down the titles, authors, the source it came from, date it was published, and the page numbers.

5) In most databases before you are given the full text you are told many things about the item. Which of these pieces of information might help you decide if these articles will be helpful?
