Institutional Effectiveness
CONTINUOUS IMPROVEMENT CIRCLE

1. Through an ongoing, integrated institution-wide process, identify outcomes and goals that coincide with our mission

2. Identify appropriate measurement instrument

3. Through research-based evaluation processes, gather data

4. Analyze, evaluate, and interpret data

5. Make plans for improvement based on analyses of data

6. Implement plans for improvement

7. Evaluate and measure implemented plans and complete cycle

STEP 1:
The institution identifies expected outcomes

STEPS 2-4:
The institution assesses the extent to which it achieves these outcomes

STEPS 5-7:
The institution provides evidence of improvement based on analysis of the results
