With the beginning of the fall quarter, travel students are training on the industry's most used computer system — SABRE, sponsored by American Airlines.

Since the beginning of the Travel Department in January, 1980, it was Sullivan College's goal to train students on an actual reservation system used in the industry. At that time, American Airlines did not have their system in training facilities.

**SABRE Leading System**

With the opening of our Lexington campus, it was necessary to again look at what computer systems were available. American Airlines had rethought their policy on not placing their system in training facilities. With the best system now being available, of course Sullivan College chose SABRE.

Realizing the importance of hands-on time, we have also increased the number of CRT's from four units to eight units. This change necessitated redesigning Room 246. New tables had to be designed and storage cabinets were purchased.

SABRE has some 11,000 travel agencies across the country, with almost 50 being in the immediate Louisville area. A quick glance at the want-ads will show you how many job opportunities are being opened by our training our travel students on SABRE!

**New Degree Added**

Beginning this fall quarter, Sullivan Junior College has also added a new associate degree program in cooperation with the Fashion Merchandising School at Spencerian College. The Associate of Science Degree in Merchandising/Marketing Management will allow those individuals who have completed the diploma program at Spencerian to finish their associate degree program at Sullivan Junior Col-

---

**Credits Transfer**

Spencerian students who have completed the diploma program will receive a block of 60 credits for their work at the Fashion Merchandising School. The remaining 48 credits for the associate degree will then be taken from general education courses and advanced major field requirements such as personnel management, sales management, marketing, retail store operations, and purchasing and inventory control. Interested students may take these classes in either day or the evening division.

---

Travel instructor Stephen Holman introduces students to new SABRE computerized reservations system.
President Sullivan is KBEA Business Person of the Year

The Kentucky Business Education Association, the statewide professional organization for business teachers, recently held their state conference in Louisville. During the conference, KBEA president Randy Wells recognized President A.R. Sullivan and Assistant Director of Admissions Stoney Brown for their outstanding contributions to business education in Kentucky.

for Proprietary Education, the licensing agency for career colleges and being elected chairman of the Association of Independent Colleges and Schools and chosen Outstanding Member of the Year in 1985.

Brown . . . "Always There"

Dr. Wells also presented M.C. "Stoney" Brown with a certificate of recognition from KBEA. "Whenever we need something," stated Dr. Wells, "Stoney Brown has always been there to help out — whether it’s a model office interview, judging FBLA contest or presenting informational talks to business education classes."

These KBEA Awards are richly deserved and recognize, once again, that Sullivan Junior College personnel continue to lead the way in business education.
Sullivan Students Really “Care” About Those in Need

The holiday season is traditionally a time for giving and receiving gifts. The student organizations at Sullivan Junior College continue to follow the old adage that “It is better to give than receive” and, in so doing, demonstrate that Sullivan students really do care about others who are in need.

Phi Beta Lambda recently participated in the “Dare to Care” program by collecting canned goods to help those less fortunate more fully enjoy the Thanksgiving holidays.

Holiday Spirit

Alpha Iota is participating in this year’s “Toys for Tots” program and the Student Board is assisting “Bridge the Gap” activities. Both of these groups are working to help make Christmas more enjoyable for young people who need some assistance.

Sullivan College is extremely proud of the members of these organizations for contributing to the true spirit of the holiday season. We encourage all students, faculty and staff to assist them in keeping this spirit alive.

PBL members Barbara Drury, Missy Dickinson and Mike Kampschaefner inspect over 600 canned goods collected in Dare to Care Drive.
DPMA Provides Professional Exposure

The student chapter of the Data Processing Management Association (DPMA) is an organization designed to provide students with professional exposure to the field of data processing. The Sullivan College DPMA organization has traditionally been one of the most active. "Sullivan College has the largest DPMA chapter in the Louisville area," according to Greg Hardesty, faculty advisor. Students meet every other week to hear guest speakers such as the International President of DPMA, Eddie Ashmore. The open session meetings have included what is expected from employees, what education is needed as well as what the job market is like.

Sullivan Students Recognized

Seven Sullivan students recently received the 1986 Individual Performance Award from the Louisville chapter of the Data Processing Management Association. David Higley, Vice-President/Director and Mr. Hardesty presented the awards at the November meeting of DPMA. The seven students receiving this prestigious award were: Tony Walker, Lisa Lawson, Bonnie Hines, Carla Upton, Jane Bray, Robert Heitz and Theresa Cleary.

Mr. Hardesty said, "A Sullivan Junior College student has the best advantage available in learning computer science. DPMA is an exciting chance for students and affords them the best opportunity to make themselves known in the computer field."

Current DPMA officers who are providing leadership to this year’s group are President Donnie Warner, a computer science major from Louisville; Vice-President Dee Dee Craig, a word processing major from Bedford, Kentucky; Secretary Linda Duvall, an accounting major from Louisville; Treasurer Philip Moe, a computer science major from Prospect, Kentucky; and Program Chairman Anthony Jackson, a computer science major from Louisville.
Travel Club Tours the World

The Sullivan College Travel Club has always been one of the most active organizations on campus. Traditionally, a wide variety of travel opportunities are offered to students to help them better understand the travel industry and those places they may be sending their clients once they get "on the job." This year is no exception to that tradition. The Travel Club has organized several trips to some of the more interesting places in the United States and the world!

Among the trips planned this year are excursions to New Orleans, St. Louis, Chicago, and Washington, D.C. In addition, students will have the opportunity for a four-night Caribbean cruise. The highlight of this year's travel plan will be a two week tour through Western Europe including England, France, Switzerland, Germany, and Italy.

"One of the best ways to expand your knowledge of the travel industry is to experience it," says travel instructor Stephen Holman. "These trips offer our students the opportunity to do just that."
B.S.U. Builds Spiritual Development

The Baptist Student Union is a program that provides opportunity for an inward journey of spiritual growth and an outward journey of service to others. David Gregory, campus minister, stated “The B.S.U. is designed for Christians who want to continue their spiritual development while in college. It is a fellowship of college students seeking to find and implement God’s purpose for them and their world.” The Sullivan B.S.U. members will be sponsoring fund raising for summer missions. Their goal of $200 will be used to send college students to do mission work. Also, the B.S.U. has a goal of $75 for World Hunger.

Recognized on more than 1,100 campuses in the United States and in several foreign countries, the B.S.U. began at Sullivan in 1977.
PBL Expects Super Year

This past quarter Phi Beta Lambda (PBL), the college extension of Future Business Leaders of America (FBLA), has been involved in a variety of civic and school activities. Leading the list was a highly successful Blood Drive, conducted for the Louisville Chapter of the American Red Cross. SIXTY-ONE civic-minded students (that's about 5½% of the student body) answered the Red Cross request for blood donors. The blood drive came when the Louisville Red Cross was experiencing a critical shortage of whole blood, so your contribution was deeply appreciated.

Steve Jones gives the "gift of life" during PBL sponsored Bloodmobile.

Also with little advertising, PBL collected aluminum cans to help pay for time on a dialysis machine. In a few short days garbage cans were overflowing with aluminum cans. On behalf of those who have benefitted from your caring and support...Thank you.

New Officers

Newly elected officers are: Angelia Hayes, President; Missy Dickinson, Vice-President; Annette King, Secretary; Tanya Evans, Treasurer. Phi Beta Lambda is open to all Sullivan students, and all majors. All you need to join is a desire to make a difference.
New Leadership Guides Student Board

The Sullivan College Student Board of Directors offers an excellent opportunity for students to get involved in planning their own social activities. The Student Board, with the assistance of faculty advisor, Dan Anderson, is responsible for coordinating most of the social affairs and student activities. Representatives and alternates are elected the second week of each quarter from each classroom.

Chairman Ginny Adkins, a Business Management Major from Louisville, KY, has become very active in promoting the welfare of the Student body. Since Ginny took office she has begun the organization and implementation of several new ideas including a costume day and ice skating party. Ginny is surrounded by very capable and energetic officers: Vice Chairman Paula Bennett, a Computer Science major from Muldraugh, KY; Secretary/Treasurer Paula Tindle, a Data Processing major from Taylorsville, KY; and Social Chairman Rachel Stinson, a Marketing Management major from Louisville, KY.

We wish the Student Board and their representatives well as they serve the needs of the Sullivan student body.
Awards and recognition are the result of Kristian Coulter's contributions to the Shelby County community.

Kristian Coulter — Woman on the Go

Kristian Coulter, a first quarter paralegal student from Shelbyville, Kentucky, is surely one of the busiest students ever to attend Sullivan Junior College. In addition to her paralegal studies, Kristian is president-elect of the Shelby Co. Chamber of Commerce. She has been active in numerous organizations within Shelby Co. including the Downtown Retail Merchants Association and the Jaycees. "I like being on the go," says Kristian. "I care a great deal about Shelby Co. All of these activities have allowed me to contribute to the community."

Change in Career

Kristian came to Sullivan after serving as a retail store manager in Shelbyville. "The store I was working in closed and I was left with the opportunity to start a new career. I'd heard about the paralegal profession and it sounded interesting, so I decided to check into several schools that offered a paralegal program." After checking with the University of Kentucky, University of Louisville, Midway College, and Eastern Kentucky University, Kristian chose Sullivan to begin her paralegal training and she has been very happy with the choice. "I'm very happy with the individual attention and the professional approach to education," says Kristian. "The decision to attend Sullivan was a good one for me."

We are equally happy to have an individual as energetic and involved as Kristian Coulter at Sullivan Junior College. Welcome aboard Kristian!
Alpha Iota Helps Young People “Dream”

Alpha Iota, the international honorary business sorority at Sullivan College, continues to become involved in charitable activities.

The members of Alpha Iota, under the direction of faculty advisor, Denise Galkin and newly elected president, Susan Teale Mascharka, sponsored a raffle to raise money for the Dream Factory, an organization whose purpose is devoted to granting a dream wish to seriously ill children.

Denise Galkin, Alpha Iota’s sponsor, summed up this fund raising project by saying, “This experience has brought us all closer. Part of what we have learned is that through our united efforts, we can help those more unfortunate than ourselves and still have fun in the process. We thank the children for the opportunity to learn from them.”

Local merchants and area businesses were contacted by Alpha Iota members to assist with donations of prizes in the effort to make dreams come true for the children of the Dream Factory. The alumni chapter of Alpha Iota purchased a gift certificate from a local department store as a prize to help raise proceeds for this worthy cause.

Ms. Jane Eubank, the President of the Dream Factory, along with hundreds of Sullivan students, faculty, staff, admission counselors and administration, attended the Alpha Iota Dream Raffle which was held in the Sullivan cafeteria.

32 Prizes

Thirty-two prizes were awarded before President A. R. Sullivan drew the Grand Prize winner of the Alpha Iota raffle. Congratulations to Sherry Lee

who is the proud owner of a new color television!

A check in the amount of $927 was presented from Alpha Iota Sorority to Ms. Jane Eubank, president of the Dream Factory, to help fulfill a child’s dream.

Jane Eubank, President of the Dream Factory, presents Alpha Iota sponsor Denise Galkin with Dream Factory pin.
Lexington Campus Grows

In addition to its main campus in Louisville, Sullivan College has a branch campus in Lexington, Kentucky. The Lexington campus has undergone major growth since its beginning in February, 1985 with 15 students. This fall, the Lexington campus greeted almost 400 students, faculty, and staff and added a new evening program of paralegal studies. In addition, it experienced its third major space expansion with the doubling of the size of the college library, a much larger student lounge and study area, additional classrooms, and administrative office space.

"Fantastic Reception"

Campus Director Bill Noel states, "The reception of Sullivan College in central and eastern Kentucky has been fantastic." He added, "This fall, we began to provide student housing for students wanting to attend Sullivan from outside the Lexington area and this has worked out very satisfactorily." Yes, Sullivan College is expanding and growing all across Kentucky!
The Summit Helps “Non-Traditional” Students

For those students who have been away for a while, returning to school can sometimes be a rather confusing and frightening experience. Adjusting to an environment, meeting new people (many of them younger!) and reestablishing study habits can sometimes create some special problems. The Summit, a group of “older than average” students is designed to assist with these problems. “Sometimes students who have been out of school for a while don’t feel like they fit,” says Kelly Duncan, president of The Summit. “Sometimes all they need is a group of people in similar circumstances to provide support as they adjust to the new environment.”

Wednesday Meetings

The Summit generally holds its meetings on Wednesday mornings, although they remain somewhat flexible to allow for members’ schedules. Vice-President/Director David Higley is enthusiastic about the group. “The non-traditional student is typically working and has additional family responsibilities along with the normal problems associated with starting back to school,” says Mr. Higley. “The Summit allows people to exchange ideas and, perhaps, reach some solutions to these special problems.”

If you’re one of these “non-traditional” students and feel the need to interact with others in the same situation, contact Kelly Duncan or watch the Newsletter for meeting times.

Specific Programs

Plans have already been made to have Sullivan faculty present specific information on study skills, stress management, and child development to the group. These sessions are designed to provide concrete ideas for solving problems common to returning students.
Evening Offers “3 Super Options”

Sullivan College offers a truly unique program for those interested in advanced training and education. Students attending Sullivan’s Evening division may choose a “Certificate Specialization” course path which allows them to quickly complete a career program in a 12 to 15 month period attending just two or three evenings a week while still moving toward both a diploma and an Associate Degree Program without loss of time or credit! With Sullivan’s unique “Career first curriculum” students may choose a certificate or diploma option during the first 4 to 5 quarters and then select from the many general education and advanced business courses during the final few quarters . . . or, students may choose any other combinations of courses to meet their personal needs as they move toward a degree.

Benefits Strong

Evening Director, Jim Klein says, “By following the first path, all of the original benefits of the certificate courses are obtained, and students can make a meaningful choice at the end of that first year. (1) Graduate with a certificate at that time and accept a new or better position or, (2) Continue on in evening classes for a diploma or, (3) Continue on for a Degree. “3 Super Options” from which to choose, and in the Sullivan Evening Division, the option is always yours!!”

Word Processing Grad...

Hi Debbie,

Just thought I'd drop you a note to say everything's going great with my job. The people work hard and
are very pleasant.

I also just received an unexpected pay raise due to an upgrade of my position: company wide. I was
really excited about that as you can imagine.

My boss has already told me to expect another raise in my next review. So, things are going great! I
feel real confident in my position now. All it took was some time to be associated with my job, to
make things go right for you at Sullivan.

Thanks again,
Lynn Kiel

Executive Secretarial Graduate...

Ms. Je Frye
Sullivan Junior College of Business
Sullivan Centre
Louisville, Kentucky 40223

Dear Ms. Frye,

As you know, it was through the Placement Office at Sullivan that I was granted an interview, and ultimately given an offer for
the position as secretary to a senior partner in a local law firm. It
has been a position that has given me invaluable experience.

When I recently decided to make a career change, I again
called on the Placement Office at Sullivan and once again was
given an excellent opportunity with a growing company. This is a
position that has room for advancement and is a company that I
feel I will be able to grow with as they expand. I want to take this
opportunity to thank you for recommending me to Mr. John
Walker of EnTrade Corporation to fill the position of Administra
tive Assistant. It will definitely be a challenge and one I look for-
ward to beginning.

Once again, thank you for all your help.
Sincerely,
Rhonda Collins

Ms. Connie C. Schamel, Esq
Director, The Institute for Paralegal Studies
Sullivan Junior College
Watterson Expressway at Bardstown
Louisville, Kentucky 40232

Dear Connie,

I thought you might be interested in knowing that not the
other day, I had the pleasure of meeting former Judge William C.
Collin. In speaking with him, I learned that his daughter also
graduated from Sullivan's Paralegal Program three years ago. She
has been working for him since and he is quite pleased with her
abilities. He further stated that he was amazed at the extent of the
curriculum that the program offers.

Give my regards to Debbie. Tell her that I did accept the
position at Ewen McKeehan & Pedigo. However, I did manage to
pick up two more freelance jobs. Fitcher, Thomas & Bohmer
and Ulich & Vidaa of Indiana. Looks like I might be with them for
Thomas & Bohmer indefinitely. Business is booming! I'm having a
ball and making lots of money. Have a Happy Thanksgiving and I
hope to see you in soon.

Best Wishes for the
Sincerely,
Julie A. Rolwing

An Accounting Grad...

Mrs. Debbie Bryles
Placement Specialist
Sullivan Junior College of Business
Louisville, KY 40212

Dear Debbie,

I thank you for your efforts at helping me to find a job. The inter-
views that you set up for me and the advice you gave me were very helpful
to me in my job search.

Sullivan Junior College of Business has many fine teachers who
are also very nice people. You are another outstanding hard-working
and hard-working credit to this excellent business school. The best of
luck to you in your future endeavors.

Sincerely yours,
Hugh Spaulding
New Staff and Faculty

New Faces Greet Fall Quarter Students

To the new students they may not see new, but to the returning upperclassmen there have been some new faces on campus this fall. First, the Herald staff wants to officially welcome Dr. Donald Knight who assumed the role as Dean of Sullivan College this summer. Dr. Knight is entering his first fall quarter at Sullivan College and was formerly the acting Chairperson of the Business Administration Department at Spalding University. Prior to that, Dr. Knight taught in the Business Department at Lansing Community College for 10 years and was a successful businesswoman and marine pilot. Dr. Knight brings a lot of practical business experience along with a strong educational background to Sullivan College and is a welcomed addition to the administrative staff of Sullivan College.

Assisting Dr. Knight in a new position as Student Life Coordinator is Sandy Hayden, formerly administrative assistant in the Dean's office. Mrs. Hayden has been with Sullivan College for two years and is well known to students, faculty, and staff as one of the most helpful and congenial personalities on campus. She is responsible for coordinating all of the non-academic activities associated with student life at Sullivan. Hayden says, "Sullivan has such a wide variety of activities and organizations. It's a real challenge to help students to develop and promote these activities. I'm really excited about the challenges of this new position."

Keinsley Joins Staff

Replacing Mrs. Hayden will be Becky Keinsley. Miss Keinsley comes to Sullivan after working in the president's office at both Spalding University and Bellarmine College. Becky started in the middle of fall registration, traditionally one of the busiest times of the year. "It was really hectic," explained Ms. Keinsley, "but with the help of the other staff, I managed to survive and I'm enjoying it."

New Faculty

Sullivan also welcomes three new full-time faculty members this fall — Rita Hall, Tres Sowder, and Roger Sucharski. Ms. Hall comes to us from the business world where she was formerly assistant personnel director at the Scelbach Hotel. She has also done consulting work with Hoffman & Associates in the personnel area. She holds a Bachelor's Degree from Indiana University and a Master's Degree in Personnel Management from the University of Louisville.

Tres Sowder comes to Sullivan not only as a faculty member but also as assistant basketball coach. Tres holds a Bachelor's Degree from Indiana University and is currently pursuing his Master's Degree at Webster University. Tres is a former graduate of Sullivan where he was a NICAA All-American for two years. After graduating from Sullivan he attended the University of Texas in San Antonio on a basketball scholarship.

Roger Sucharski is by no means a newcomer to education. Over the past two years, he has been a faculty and staff member at Spalding University where he designed and built a new degree program in Information Systems for the University. Prior to that position he taught at Lansing Community College in Michigan in their data processing department. He is a graduate of Michigan State University and is completing his Master's Degree at Webster University.

All of these new faculty and staff members are welcomed to Sullivan College. They all bring a wealth of knowledge and a student orientation that will benefit students here.
Dr. Coppock Appointed to Accreditation Committee

Dr. Steve Coppock, Executive Vice President of Sullivan College, was appointed to the Committee on Standards and Reports of the Southern Association of Colleges and Schools' Commission on Colleges for 1986-87.

This committee reviews all community and junior colleges in the eleven-state southern region for initial accreditation or reaffirmation of accredited status.

He is the first private career school administrator in the southern region to ever receive such an appointment. Coppock will be serving with Presidents, Chancellors, and Deans from two-year colleges throughout the eleven-state southern region on this vital committee.

It is encouraging to know that whenever the Southern Association wants and experienced and valued judgement on two-year college education in the Southeast, that they would turn to Sullivan Junior College of Business in Louisville, Kentucky!
Halloween Costume Day is a Big Hit

Wednesday, October 29, was a most unique day at Sullivan. Students, faculty and staff were all dressed in their favorite Halloween costume. Strolling the hallways were clowns, monks, gorillas and devils to name a few. A witch and a jailbird were seen teaching classes. The winner for the most original costume was student Dana Kirk as the "headless person." Best costume winner was Ruth Snow as the great pumpkin.

Costume Winners

Then, Thursday night, a masquerade ball. WQMF's "Rock and Roll Machine" provided the music for a dance sponsored by the Student Board and Cheerleaders. Costume winners were Todd "Buckwheat" Puckett and "Run-DMC", Pete Sanders, Terry Moorman and Alex Moses. Literally hundreds of students got into the spirit of the action at both the halloween dress day and for the halloween dance the following evening. It's this kind of school spirit that makes Sullivan's motto, "There's more to college than classrooms."

Weird Faculty

The Herald particularly thanks the faculty and staff for their enthusiastic support of this activity. It was really fun seeing an accounting professor, Calvin Carroll, dressed like a convict carrying his chain and ball walking down the hall and teaching class. Watch the students' schedule for the next fun activity — there's lots more planned for this winter and next spring!
Sullivan Hosts Regional FBLA Meeting

Sullivan Junior College has been selected as the site for a regional meeting of the Future Business Leaders of America. Over 300 students and their advisors will gather on the Sullivan campus December 12 to share ideas about the business world as they prepare for future leadership positions.

Outstanding Students

FBLA has long been an organization devoted to helping young people to acquire the necessary skills to be successful in future careers. As such, there’s been a natural relationship between the FBLA and Sullivan Junior College. “As an organization that is designed to prepare students for future careers, Sullivan College is particularly pleased to have these young people with us on campus,” says Donald L. Knight, College Dean. “The FBLA has always been an outstanding organization and we enjoy working with them whenever possible.”
Activities Abound Year 'Round at Sullivan College!

Over 400 Sullivan students filled the Belle of Louisville for the Fall Quarter New Student Get Acquainted Cruise.

"Quit monkeying around and get to work!"

"Feeling pretty... oh so pretty...
Is this really office dress day?"

Get Ready!! Sullivan's annual ski trip to Picoi Peaks is all set for January 30. Now let's see, which way does the slope go?

"My date's on my right... the person on my left is wearing a halloween mask."

"You mean this is a paddle?" — No, mean it doesn't have a motor. Lots of fun was had by all on the recent river canoe trip to Indiana.

Cheers! Cheerleaders Michele and Leslie, followed by the Redbirds pep band, lead students in big preseason pep rally.

"A hopping" good time was had by many students at the Halloween Dance sponsored by the Student Board.

"All together girls... 1 and a 2 and a 3..." — Basketball players and students kick up their heels in fun-filled basketball pep rally.
“Experience - Youth - Height”
Keys to Basketball Season

With three starters returning from the 1986 Kentucky Junior College State Championship team, Sullivan coach Dave Skinner and assistant coach Tres Swedder are optimistic that the Executive will develop into another championship contender. Last year's team posted a 20-12 record against national competition and with a combination of experienced veterans and new talent, Coach Skinner is hoping to equal or improve that record.

Injuries Hurt

Through the first game of the season, the Executive are 2-3, finishing second at the Kentucky Junior College Pre-Season Tournament. The early season has been marred by the loss of two key players, 5'8" sophomore guard Chris Riley, who averaged 16 points a game last season for Sullivan, is out for several weeks with a broken hand; and 6'7" sophomore Kim McClain, a transfer from Framingham State College in Massachusetts, is out with a dislocated shoulder.

Vincennes Tough

In the fourth game of the season, Sullivan hosted nationally ranked Vincennes University (Indiana), a team which posted a 36-2 record last year while finishing second in the National Junior College Championship. Vincennes, returning three starters from that squad, came to Louisiana and ran into a fierce challenge the first half from the “Execs.” Behind the play of 6'3" guard Rod Knight and 6'4" forward Paul Huff, the “Execs” trailed the big and powerful Vincennes team by only five (36-31) at half time.

Guard Rod Knight scoring 2 of his 18 points against Vincennes.

second half, Vincennes outscored the “Executives” 14-2 in the early going and from that point on their height and strength took over.

In addition to Knight’s 18 points and Huff’s 16, the “Execs” received outstanding play from 6'6" sophomore center Shawn Young and 6'6" forward Michael Land, a freshman from Springs Valley High School in French Lick, Indiana.

Impressive Squad

Other players contributing to the “Execs” success this year include veteran sophomores Maurice Turney, a 5'9" guard and Pete Sanders, 6'5" forward. In addition to Land and McClain, new additions to the Sullivan squad include Lavert Bazzle, a 6'2" sophomore transfer from Clarendon Junior College (Texas); Chris Fairchild, a 6'0" sophomore guard who transferred from University of Nevada Las Vegas; Derwaye Hogan, a 6'1" freshman from Louisville Valley High School; Gene House, a 6'3" forward-guard from Muncie South (Indiana); Terrance Moorman, a 5'9" sophomore point guard who transferred from Northern Kentucky University; Loren Green, a 6'5" forward from Indianapolis Manual; Darwin Taylor, a 6'0" guard from Taylor County High School; and Mark Lasswell, a 6'6" forward from Richmond, Indiana.

With more quickness and size than the “Execs” have had in recent years, this year’s squad will play an exciting brand of basketball. Home games are played at Seneca High School gym with most games beginning at 8 p.m.
When the fall quarter starts, athletics really begin to heat up at Sullivan Junior College. The four time national championship intercollegiate basketball is the prime focus, but for those whose interests (or abilities) do not fit intercollegiate athletics, Sullivan offers a wide variety of opportunities. Athletic Director Dave Skinner has already started "gearing up" for these activities.

Basketball, Bowling
Traditionally, intramural basketball is a favorite among Sullivan Junior College students. This year's men's team has both size and quickness. Coach Alex Moses anticipates with the 15 students participating, the team should be very competitive.

Intramural bowling was kicked off with an October 14th party at Rose Bowl Lanes. This year over 55 Sullivan students are participating. For those who are particularly good bowlers, there will be opportunities to bowl intercollegiately through the National Little College Athletic Association.

Other Activities
For those whose interests do not lie with basketball or bowling, Mr. Skinner is organizing tournaments in pool, foosball, and pinball. These tournaments are traditionally great fun and usually draw a large number of participants. Watch for details in coming newsletters.

With this wide variety of activities, there's usually something for everyone who wants to get involved in intramural athletics. If you have an idea for an activity, please contact Ms. Sandy Hayden, Student Life Coordinator.
Pep Band Spreads “Execs Fever”

The Sullivan College basketball games will add a new element this season — Execs Fever! The Sullivan College Pep Band featuring Beth Yount, Sheila Helm, Mendy Fisher, Sharon Murrone, Lisa Dickens, Susie Holloway, Mark Geyman, and Marsha Nolin will be spreading this fever during the 1986-87 home basketball season. The group promises to add enthusiasm, action, and noise to each game. Come on out and enjoy the excitement! Execs Fever — catch it!
Cheerleading Squad Resounds with Spirit and Enthusiasm

Following the fall tradition at Sullivan, cheerleaders were selected in competitive tryouts. The following ladies were selected from contestants by tryouts before judges: Lisa Butler and Michele Watford are returning from last year’s squad. New faces include: Leslie Johnson, Laura Graves, Tanya Evans, and Sharon Martin.

Sullivan began selecting cheerleaders in 1965 and the 1980 squad was selected #1 at the NLCAA tournament. Some of the activities this year, in addition to practice and games, include sponsoring a Dress Down Day and a bake sale. According to Andy Azzam, faculty sponsor, “Our squad is full of experience, enthusiasm and spirit. They will be great representatives of our school.”

These young ladies work hard to promote participation in College sponsored athletic activities. Our gratitude and thanks to these students who continue the tradition of quality athletics and the best student involvement.

Cheerleaders lead spirited pep rally.
