HELLO! Welcome To Sullivan!

Registration completed and ready for classes are 1961 High School Graduates—L. to R.: Linda Crider, Fairdale; Joan Theiss, Oldham Co.; Alan Schneider, Providence; Sharon Fuller, Waggener; and Charles Stinson, DeSales.

Over 150 NEW Students Start Summer Term

By Beverly Price

For all of us OLD students reporting back today for the summer quarter, it is quite a shock to see all these new and shining faces. But I'm sure each of you will do your best to make all of the new students welcome and at ease during these first hectic days.

To each of the new students, I extend a sincere and hearty welcome to Sullivan Business College.

As I look back and try to remember my first few days here at Sullivan, I can remember how scared and apprehensive I was, but I also remember how quickly this feeling passed away and how I was made to feel at home.

I've dug down deep in the files in the main office to get some information about this new group of students and I was quickly surprised to find out how active they had been in their high schools. Some of the statistics on our new students are:

12 of the new students were on their high school newspaper staffs and 4 of these were editors. 8 were on annual staffs and 2 were annual editors. 23 belonged to Future Business Leaders of America, and 7 of these were officers in the club. 17 belonged to language clubs, and 6 of these were officers in the club. 19 were high school class officers (a really good percentage).

Just to name a few more: 30 belonged to pep clubs, 11 were members of the National Honor Society, 19 were student Council members (9 of these were officers), 4 girls were football or basketball queens, 2 were majorettes, 4 belonged to Quill and Scroll, 22 were chorus members, 4 were cheerleaders, 12 were members of F.T.A., 4 belonged to the National Forensic League, and 3 were letterman.

As you can see, we have a group of students who showed a lot of interest in activities during their high school years. We encourage each of you new students to join in the many activities here at Sullivan this coming year.
Sullivan Completes Affiliation — Degree Program Now Available

President Sullivan has just formally announced the complete affiliation between Sullivan and Drake College of Florida, in Fort Lauderdale. This affiliation will allow graduates of Sullivan to receive full credit for their courses taken at Sullivan if they transfer to Drake to work toward a Bachelor's degree. Drake offers both a B.B.A. (Bachelor of Business Administration) and a B.B.S. (Bachelor of Secretarial Science).

This is wonderful news for those of you who decide that you want to further your education after graduation from Sullivan. Full affiliation means that all C's, B's, and A's will be transferred with full value. In many cases, students wanting to go on toward a degree will lose many credits in the transfer process, particularly at our state universities. But with this affiliation, you will be well on your way toward a degree by the time you finish your training here at Sullivan.

This is another step in the Sullivan plan for excellence to offer you the finest business training available.

Also, the members of the Herald staff all agree that they can't think of any place they would rather work toward a degree than in Fort Lauderdale. How about you?

If any of the new students are interested in obtaining more information about the degree program, please contact Vice-President A. R. Sullivan in the college office.
Mr. Francis L. Moore

Faculty Profile

Our Faculty Profile this month turns its spotlight on a man with an extensive academic and business experience, Mr. Francis L. Moore. Mr. Moore is a business college graduate, has an A.B. degree in commercial education from Bowling Green College of Commerce, and a M.B.A. graduate Degree with a major in accounting from Xavier University.

In addition to this excellent academic background, Mr. Moore has working experience as an accountant and stenographer with the L & N Railroad, and has served as a special agent for the Internal Revenue Service, working with Federal Taxation.

Mr. Moore has taught in both public and private high schools and colleges and brings to Sullivan many years of teaching experience. He is certified in commercial teaching by the Kentucky Department of Education.

In the way of personal data, Mr. Moore is single, and is interested in sports, particularly basketball and baseball. (Maybe we've found a basketball coach for next year?).

Mr. Moore is qualified to teach many different business subjects and will be dividing his teaching duties between accounting, secretarial, and business machines departments this quarter.

I know I speak on behalf of the faculty, staff, and student body in saying how happy we are to have Mr. Moore with us this year.
President Sullivan Speaks To Convention

During our spring vacation, A. O. Sullivan and A. R. Sullivan drove to Atlanta, Georgia for the Southeastern Business College Convention.

President Sullivan delivered a speech on “Excellence In Specialized Collegiate Business Education” to the convention delegates. His subtitle to the speech was “Six Ingredients For Excellence.” President Sullivan outlined the philosophy that he has used in the operation and direction of Sullivan Business College and explained to the group just what he thought was necessary for any business college to attain excellence.

The six ingredients are:

1. Student body—With the proper attitude and with the ability to develop into not only students but graduates capable of obtaining top positions. He stated that Sullivan looks for three attributes in each of its students; Good attitude, good personality, and third, ability, in that order.

2. Faculty—Without a dedicated superior faculty, no school can succeed or hope for excellence, (and as you know, President Sullivan has provided the students here the finest faculty available, including a C.P.A., many instructors with master’s degrees, and all experts in their fields.)

3. Curriculum—Must be up to date and meeting the needs of the community which hires the graduates. Must be continually revised to meet the community’s needs.

4. Facilities—Any school which hopes for excellence must have excellent facilities.

5. Planned Extra-Curricular Activities.

6. A Dedicated Administration.

President Sullivan was presented with a Certificate of Service by the Association recognizing his 38 years of service to the business college field. He was also elected a director for this new year.
Editorial

By A. R. Sullivan
Vice President, Sullivan College

Today, we welcome to Sullivan Business College a large number of students. To each of these I extend a sincere welcome and also a serious challenge. The challenge I make to each of you is in the form of a question. The question is, “Have each of you come to Sullivan with the proper attitude concerning your own future success?”

What I mean by this question and challenge is really very simple. The months that you spend here and the efforts that you put forth represent a very short portion of your life, but yet these months may well determine what your future will hold for you. The habits you form, the knowledge you gain, the maturity and confidence you gain in your own abilities, can start you on the road toward success, but, only if you are willing to put forth your very best efforts will this be possible.

Are each of you ready to fully apply yourselves in your classwork? I challenge you to do your very best.

Another important point is your attendance. One of an employer’s first questions is about a student’s past attendance. He knows the habits developed in college will carry over in your everyday work. We cannot recommend to employers those who do not have good attendance. Develop good attendance habits now and they will pay dividends later.

The facilities and equipment here at Sullivan, as you can see, are the best money can buy. The faculty is of superior quality and you will profit immensely from their vast and varied experience. With the faculty and facilities we offer you the only ingredient necessary for your future success here is you. Work hard, do your best, and your future success is only a short distance away.

Again, I welcome you and challenge you on behalf of our entire faculty and staff.
Yes! 99.2% Graduate Success!

Again this year, Sullivan University’s graduates have achieved an amazing graduate employment success record for the year ending December 31, 2000. Dr. Dotty Heady, Director of Sullivan’s Graduate Employment Services (GES) and Associate Director, Sherry Klein, released today the figures for the last calendar year. These statistics are released in April each year to allow the December 2000 graduating class to have 90 days to match their skills with available employment positions.

As of March 31 each year, University officials lock in the graduate employment success record for the prior year. This year the figure again passed 99% with an official total of 99.2% of all graduates available for employment accepted positions related to their Sullivan University education.

Only Sullivan University publishes it’s statistics

To our knowledge, Sullivan University is the only four-year college or university in Kentucky to officially publish graduation employment success records year-after-year, program-by-program. In the statistics announced today, many programs again this year are showing 100% graduate employment success. Dr. Heady stated, “Sullivan graduates are in demand and our job is to match each graduate who is available and ready for employment to positions available wherever they occur in the United States. Our hospitality graduates are accepting positions all around the world and our business, paralegal, early childhood, and other graduates are accepting positions all over this region.”

She added, “With our growing bachelor’s and master’s degree programs, more and more of our graduates are moving into higher levels and better paying positions as they take their previous Sullivan education at the associate degree level, add bachelor’s and master’s degrees, which allows them to either accept new positions or move up with their current employer.”

Associate Director Sherry Klein added, “It begins when we interview our upcoming graduates as they approach graduation. That activity, coupled with our annual job fairs, where companies can interview our graduates face-to-face allows our graduates to learn more about them, are a part of the steps we take to be sure every graduate is successfully employed.”

Published record of Sullivan University’s graduate employment success!

Nationwide, fee-free lifetime assistance

Every Sullivan graduate has fee-free lifetime graduate employment assistance. On the day of their graduation, once, twice, or as many times as needed for a lifetime this service is available to be used over and over again.

The staff of the Graduate Employment Services department on Sullivan’s main campus in Louisville is ready to serve. Back row, left to right are Employment Specialists Penny Perkins, Sherry Klein also Associate Director and Mike Cook. Front row left to right are Staff Tammy Stinson and Jeannie Baker, with Dr. Dotty Heady, Executive Director of Graduate Employment Services and Lisa Likins, Staff.

The Herald staff congratulates the Graduate Employment Services staff not only on the main campus in Louisville, but also the staff on the Lexington and Fort Knox campuses, who assisted each and every one of our graduates to match their career goals to the top positions available. This one fact, as well as Sullivan University’s curriculum and year-round operation, and “Plus Friday” schedule continues to attract more and more students each year to the Sullivan approach to career preparation.

See pages 4 and 5 for additional graduate employment success.
What Is Alpha Iota Sorority?

By Deanna Brannin, President

Alpha Iota is an International Business Sorority with chapters located in the leading business schools and colleges throughout the United States, Canada, and Hawaii.

The purposes of Alpha Iota are to foster a spirit of loyalty, friendship, and cooperation of the members to their schools. It is to encourage and assist the members to try for increased efficiency, higher standards, and continued progress in their respective occupations and professions. It is also to encourage employers to seek employees through such recognized schools and colleges of business and commerce.

Every active member must maintain a superior scholastic average. The local chapter member who has maintained the highest average for the academic year will be presented with a scholarship key.

At least one conclave meeting is held in the Regional Associations annually, generally in the spring or fall. This year, the Kappa Phi Chapter was fortunate to have one of its members, Linda Willkerson, attend the conclave in Davenport, Iowa, in April.

Some of our activities have included collecting clothing for the flooded area in March; and in April, we served K.E.A. On May 20, our Regional Counselor, Mrs. Claribel Deruy, and her guest who accompanied her, came on an inspection tour.

Our main source of income consists of our monthly dues and our sales activities. This winter we purchased a coffee maker and have been serving coffee and doughnuts one day a week. Now that the weather has turned warm we plan to serve lemonade and iced tea. Our chapter is now planning to "adopt" a family in Eastern Kentucky and will try to help them have a happier life.

Up until this time our chapter has been small, but by the end of summer we hope to have a membership of thirty or thirty-five members, all working together to achieve some of the remarkable results that other national chapters have achieved.

As president of Alpha Iota Sorority, I would like to encourage all the new students to keep your grades up and in September, you may be selected to become a member of Alpha Iota.
Kappi Phi Chapter Represented At Regional Alpha Iota Conclave In Iowa

By Linda Wilkerson

April 18 and 19 brought about the Spring Conclave of the Quad-States Regional Association of Alpha Iota, which was being held at the Hotel Blackhawk in Davenport, Iowa. More than eighty girls from the states of Wisconsin, Iowa, Indiana, Illinois and Kentucky attended. I was fortunate to be able to attend the Conclave representing Sullivan Business College and the Kappa Phi Chapter.

The first meeting, which was the business meeting, started at 1:30 p.m. on Saturday, April 18, and lasted until 3:15. As Kentucky was now a member of the Quad-States Regional Association, it was decided that the name had to be changed; therefore, the name, The Midwest States Association, was adopted.

A tour through W.O.C. Radio and T.V. Station was on the agenda at 3:30, so the girls wasted no time changing into flats and starting the long walk up Brady Street to the station. W.O.C. is one of the largest radio and television stations in Davenport and extremely modern.

That night at 6:15 we had a Dinner Banquet. The girls from the Davenport Alumnae were dressed in old-fashioned dresses. We had a wonderful dinner, and then heard Dr. William Peterson speak on “Tall Tales of the Mississippi.” After his speech eight girls came in doing the “Can Can”; then they all sang selections from “Show Boat.” The banquet was over about 9:30 p.m.

Sunday morning we were back at the hotel in the Gold Room for the planned luncheon, the last meeting of the Conclave. We had a fine lunch and heard a short speech by Mrs. Alice Fersch. Afterwards, each girl went her own way, to her own part of the world, with the memories of a wonderful Conclave and her many new friends.

I know future delegates from Sullivan Business College will enjoy the conventions as much as I did.

* To start August, '64
Luncheon Held For Regional Counselor Of Alpha Iota Sorority

By Peggy Anderson

Mrs. Claribel Deruy, Regional Counselor of Alpha Iota, International Honorary Business Sorority, visited Louisville Wednesday, May 20. The purpose of her visit was an inspection tour.

A luncheon was held in Mrs. Deruy's honor at the Kentucky Hotel sponsored by the Kappi Phi Chapter here at Sullivan. Mrs. Deruy talked about her own sorority chapter in Springfield, Illinois, and she gave us a number of suggestions for raising money. She enlightened us concerning the aims and objectives of every member of Alpha Iota. Mrs. Deruy told us more about our sister chapters throughout the United States, including Canada.

After the luncheon, Mrs. Deruy registered at the Towne Terrace Motel, and she was taken on a tour of Louisville by three members of Alpha Iota. Among the sites they saw were the Ohio River, Churchill Downs, Iroquois Park and the lookouts there. Later in the afternoon, she was taken to Kunz's for dinner by Miss McWhorter. She was met for breakfast by Mrs. Hutcherson the next morning.

Mrs. Deruy left Louisville on Thursday morning, May 21.

The girls of Alpha Iota enjoyed getting to know more about their sorority and their Regional Counselor.

Alpha Iota let the Ball Team use its coffee maker to help raise funds for new equipment. Wayne Miller and Bobby Ward did the honors each Wednesday in May.
'Executives' Softball Fortunes Looking Up!

By Dave Frechtle

In March there was some enthusiasm shown for a softball team. Mr. Sullivan organized a committee and a notice was placed on the bulletin board. Chuck Huffman was named captain and Mr. O'Mary agreed to coach. Tryouts were held and the players were selected.

Chuck Huffman contacted the City Department of Recreation and they placed the team in the United Church League and contracts were signed and the team was officially organized. Mr. Sullivan agreed to supply the jerseys and the entrance fee, and the team was to furnish the rest. The other members of the league are as follows: St. James, Salem, Shawnee Christian, St. George, and the P.C.L.'s.

The games are played on Wednesday evenings at Wyandotte Park.

May 13 at 8:30 p.m. was the first game and the inexperienced Sullivan team suffered a defeat from the mighty, highly-experienced P.C.L.'s, which turned out to be a team sponsored by one of the more popular bars of Louisville. (A church league??)

May 20 at 7:00 p.m., Shawnee Christian also defeated Sullivan, but the "Execs" put up a much stronger fight. On June 3 fortunes began to look up as the "Execs" defeated St. James 21 to 4.

Members of the team are as follows: Ray Watkins, Jack Fischer, Bob Davenport, H. Jones, Wayne Miller, Chuck Huffman, Dave Frechtle, "Bird" Dahl, "Colonel" Ward, Bill Meredith, Dave Flowers, Jim Miller, Joe Hagan, Lee Holbrook, Don Bacon, and last, but not least, the coach, Mr. O'Mary.

These are the batting averages as of May 27. With the errors starting to be ironed out, the future is promising.

Maybe the reason the team is in the dumps is because of the lack of the whole student body's support. There is a large crowd there every week, but we can do better.

At our May 27 game, Mr. Sullivan Jr. was bragging a bit and he warned the team that the first player to commit over four errors would be taken out and he (Mr. Sullivan) would go in his place. I'll not name who did it, but in the fourth inning who should appear in center field but Mr. Sullivan, Jr. In two innings his fielding average was .333 (one for three, he missed two; he blamed it on a new glove) and batted 1000 (the second baseman was looking the other way). Mr. Sullivan, Jr. has announced his retirement from softball with this perfect batting average.

There were a few gaps in the fielding, but they are being closed up with our new players who started in June. The new students can find the schedule on the wall with the green monster in the main hall on Tuesday nights and all day Wednesday. You can listen to WAVE radio 970 at 5:45 Wednesday evenings to find out if the game is rained out. Support your team, get out there and back them.
